## Background

It is believed that 2 Corinthians is Paul's fourth letter to the church and is therefore a part of ongoing correspondence between Paul and the Corinthians.

Paul first preached the gospel to the Corinthians in the synagogue but had to change venue when the Jews opposed him (Acts 18). He then continued his ministry next door and stayed with them for 1 and 1/2 years while also working as a tent maker.

2 Corinthians reveals a relationship rift between Paul and the church. He wrote this letter in an attempt to win back the Corinthian's loyalty.

He refuted certain things that were said about him, reminded them that he was an authentic Apostle and urged them to reject the intruders.

Paul was criticised for being indecisive (1:17), cowardly (1:23), weak in speech (10:1, 10), ill and powerless (12:1, 11-12).

He could have responded in many ways but surprisingly he agrees that he is weak, 'when I am weak then I am strong' (2 Cor 12:10).

He boasted about Christ, not his own strength.

This letter provides a distinctive understanding of Christian discipleship. We don't look within for our strength but to Christ. We boast not about ourselves because we proclaim Jesus Christ as Lord (2 Cor 4:5).

Such a letter saves us from triumphalism and a 'showy' style of ministry. Rather we humbly look to God for our comfort, strength, hope, example, compulsion and hope.

Radical disciples are weak.
